Art – Year 11

Y11 Art Learning Map

Year Focus: Confident and thoroughly developed art skills, critical understanding and personal and meaningful journeys

Assessment Objective 1
Develop ideas through investigations, demonstrating understanding of project theme.

Assessment Objective 2
Refine work by exploring idea and experimenting with media, materials, techniques and processes.

Assessment Objective 3
Record ideas, observations and insights relevant to intentions

Assessment Objective 4
Present a personal response that realises intentions

"Macro"

Developing a personal focus

September to October

Drawing, observing and working from images, objects and artist's work.

Producing large and small scale work

Develop, investigate and record

Reflection

Review and refine all coursework

November to December

Reflect on all project work to date

Complete, refine and develop work in response to feedback

Choosing a project focus to inspire a new outcome

Checking visual language and artistic journey is clear

Externally Set Assignment

AQA

January - May

Choose a starting point from the exam paper in January

Develop a personal project from this theme, using the Assessment Objectives to guide you through. Embed art skills, understanding, and artist knowledge

Complete a 10 hour exam, in the art department around April/May

3D Design – Year 11

AQA Exam Board

EPS Modelling Foam

We begin by studying a designer called Joshua Smith who makes miniature 3D architectural models.

You will then make your own version of a 3D building.

Professional Clay

You will choose a famous film or TV program and look at how models are made using clay.

You will make a 3D Clay model based on a character from a famous film.

Mixed Materials

In this Grade Booster project, you are able to design and create a range of furniture inspired by famous designers.

Whiteboard

This is an architectural project where you will study a specific area of design and then design and make your own 3D Architectural model using Whiteboard

Architectural model using Whiteboard

Found Materials

Using everyday things/scrap and unusual objects, you will design and make a sculpture or artifact of your choice.

Cardboard

You will be given a number of options and then design and make a 3D model of your choice using cardboard.

CAD

In this project, you will learn more about using CAD (Autodesk) to design products and create realistic images of your ideas.

Sustained Project

This is your biggest project and will allow you to work with any materials and be as creative as possible to create a final model(s) that showcases everything you have learnt.

NEA External Exam

You will be given a number of challenges to choose from. After creating a body of design work, you will then make your design over 2 consecutive days.

8. Predestination (al Qadr) 9. Akhirah (life after death)	8. Theodicies	8. Gender prejudice & discrimination in Islam	8. Religious Upbringing	8. Festivals & commemoration	8. Local Church & Christian Aid	8. Muslim views about the environment	8. Attitudes to wealth & poverty

Sociology – Year 11

A Introduction to Sociology

Essential Knowledge:
Culture, Norms, Values, Status, Socialisation, Identity, Diversity, Foundational Theories.

B Research Methods

Essential Knowledge:
Ethics; Interview; Observation; Pilot Study; Qualitative data; Quantitative data; Questionnaire; Reliability Representative; Sample; Validity

C Families

Essential Knowledge:
Reconstituted families; Cohabitation; Conjugal Roles; Divorce; Extended families; Lone-parent families; Monogamy; Nuclear Families; Patriarchy; Polygamy; Same-sex families

D Education

Essential Knowledge:
Agents of socialisation; Anti-school subculture; Cultural Capital; Formal Curriculum; Hidden Curriculum; Labelling; Life-chances; Meritocracy

E Crime and deviance

Essential Knowledge:
Dark figure; Official statistics; Anomie; Status frustration; White collar crime; Chivalry thesis; Social Construction; Criminal Justice System.

F Social Stratification

Essential Knowledge:
Achieved status; Aristocracy; Caste; Class; Elite; Feudalism (estates); Slavery; Social inequality; Stratification.

Learning Journey Sociology GCSE

Y10 includes three official assessment points that will assess pupils knowledge and understanding using exam questions in addition with homework and in class assessments for example, mini-whiteboard quizzes, exam practice and writing exercises.

Y11 have assessment points throughout the year that continue to prepare pupils for the final examinations at the end of Y11.

GCSE in Home Languages – Year 11

Various exam boards

Silverdale School is extremely fortunate to have students who speak a wide range of languages at home from Gujarati, Persian and Arabic to Urdu, Chinese, Hindi and Turkish as well as a wide range of European languages such as Russian, Lithuanian, Portuguese, Italian, Spanish and German. Being bilingual is fantastic for students' brains and has been shown to improve their creativity, focus, decision making and thinking skills in all subjects.

In celebration of this, we are keen to ensure that students have the opportunity to be accredited in as many of these languages as possible. If your home language is not English, passing an exam in your home language can increase your child's confidence as well as adding to their range of qualifications.

Depending on your child's proficiency, this could be a GCSE or an A level. Last year, with support from home, some students achieved grades 8 and 9 at GCSE and one student achieved an A grade at A level. These high grades can be very helpful when applying to university or college or for jobs in the future.

Each year in September we invite Year 9 to Year 13 students to elect to take a GCSE in their home language. We give them the opportunity to do a mock exam in January to practise and to decide if they are ready to do the exam and, if they are, we enter them for the exam.

In 2024 we had over 21 students taking exams in 10 different home languages, including 5 A level entries. This really is something to celebrate!
