

# Puzzle of the Week

June 4th 2018

In this addition sum, each letter represents a different non-zero digit.

$$\begin{array}{r} \text{F L Y} \\ \text{F L Y} \\ + \text{F L Y} \\ \hline \text{A W A Y} \end{array}$$

Find the values of A, F, L, W and Y?

Entries in a box by Friday 3.15pm please
