Y10 Art Learning Map

Year Focus: Consistent art skills and artist analysis, self-directed investigations and meaningful responses

Assessment Objective

Develop ideas through investigations, demonstrating understanding of project theme.

Assessment Objective 1

Refine work by exploring idea and experimenting with media, materials, techniques and processes.

Assessment Objective

Record ideas, observations and insights relevant to intentions

Assessment Objective 4

Present a personal response that realises intentions

"Art Explorations"

Skilful application of the Formal

Elements of Art

September to December

Large scale paint, pen and inlexplorations

Artist's analysis

Skilfully apply formal elements of art and combine these in different ways to create outcomes.

Experiment, apply and compose

"Macro"

Developing a personal focus

December - March

Drawing, observing and working from images, objects and artist's work.

Producing large and small scale work

Develop, investigate and record

Personal Project with independent artist focus

April - December

Researching, communicating ideas and developing concepts.

Cycling through the assessment objectives and understanding how to work like an artist

Combing research, experiments and ideas to create outcomes

3D design – Year 10

GCSE in Home Languages – Year 10

Various exam boards

Silverdale School is extremely fortunate to have students who speak an wide range of languages at home from Gujurati, Persian and Arabic to Urdu, Chinese, Hindi and Turkish as well as a wide range of European languages such as Russian, Lithuanian, Portuguese, Italian, Spanish and German. Being bilingual is fantastic for students' brains and has been shown to improve their creativity, focus, decision making and thinking skills in all subjects.

In celebration of this, we are keen to ensure that students have the opportunity to be accredited in as many of these languages as possible. If your home language is not English, passing an exam in your home language can increase your child's confidence as well as adding to their range of qualifications.

Depending on your child's proficiency, this could be a GCSE or an A level. Last year, with support from home, some students achieved grades 8 and 9 at GCSE and one student achieved an A grade at A level. These high grades can be very helpful when applying to university or college or for jobs in the future.

Each year in September we invite Year 9 to Year 13 students to elect to take a GCSE in their home language. We give them the opportunity to do a mock exam in January to practise and to decide if they are ready to do the exam and, if they are, we enter them for the exam.

In 2022 we have over 30 students taking exams in 13 different home languages. This really is something to celebrate!
